DETAILED ACTION

1. Applicant's election of claims 2 and 4 with traverse filed April 22, 2004 is acknowledged. However, the requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. Claim 2 recites the limitations "the ordinary water tank", "the containers", "the scale or device", "the alarm signal", "the automatic pressure adjusting device", "the reversing device", "distribution system", "the device for receiving signals", "the alarm bell", "the power switch-off device", "the fire extinguishing drencher", "the pipeline", "the automatic valve", "the safety valve", "two high pressure tanks", "the naturally returning fire extinguishing agent", "the pressure meter." There is insufficient antecedent basis for these limitations in the claim.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Meyer et al., Polan, Fischer et al., Shea, and Hattori are pertinent to Applicant's invention.

Art Unit: 3752

6. Claims 2 and 4 appear to contain allowable subject matter and would be favorably considered if the above rejection is overcome.

7. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
